Mobility In Practice

Modular & Industrial Solutions

Whether for the electronics laboratory, in the logistics and in the automotive sector, our extensive standard range provides diverse solutions for the safe and secure mobility of valuable equipment. Our modular designs enable versatile cart configurations, immediately or at any time later on. For demanding ESD environments Knürr provides various cart systems – ranging from robust transport trolleys through to the fully equipped measurements and diagnostics cart.

Ergonomic details also simplify daily tasks in a wide range of environments. An extensive range of accessories supplements Knürr's mobile equipment carriers as requested by the customer: Flat screen holders, ESD castors, isolating transformers and leakage detectors, cable routing elements and other practical accessories.

Mobile Equipment Carriers

Knürr DacoMobile®

MOB20095

MOB20053

Knürr DacoMobile® Strong points

Stability

- Total load rating of up to 2100 N
- Worktops each with up to 800 N load rating
- High stability with low-lying centre of gravity
- Distributed load drawer extension up to 200 N
- Torsional strength with stable aluminium extrusions on die-cast aluminium stabilizers and crosspiece of sheet steel
- Optimal stability for equipment set up in the trolley with raised edges all around the worktop

Convenience

- Optimised operation with additional module components, such as
 - Cable duct
 - Rear panel
 - Euro mains distributor
 - Master switch
 - Socket strip

- Ergonomically optimal adjustment with
 - Keyboard extension
 - Pull-out shelves
- Effortless management of obstacles and uneven floors with Ø 125 mm large smooth-running castors
- Positioning with 2 lockable castors
- No marks and scratches on the doors, panels and fittings due to the integrated plastic bumper cap

Variability

- Standard and ESD model components
- Modular designs enable numerous individual models
- Versatile applications ranging from the simple storage trolley to the complex laboratory station
- Simple and quick adjustment without special tools

MOB20051

Knürr DacoMobile® system components

Technical data

- Modules can be installed in 50 mm increments in height
- Smooth-running castors, Ø 125 mm, two with stoppers

Material

Basic rack consists of:

- Extrusions: extruded aluminum
- Runners: die-cast aluminum
- Crosspiece: sheet steel

Worktop:

sheet steel

Other modules: combination of sheet steel with laminated particle board, or sheet steel.

Color

Extrusions, runners, castors:
RAL 5003, sapphire blue
or RAL 7021 ESD
or RAL 7035, light grey

Modules:

RAL 7035, light grey
ESD castors: black

Maximum static load rating

Per basic rack: 2,100 N

Per castor: 750 N

Surface load per worktop:
up to 800 N

How supplied

Fully assembled

Finish

Metal parts: powder-coated texture

Laminated sheet: fine-textured

Knürr MetraMobil®

MET 20000

MET00034

MET00037

Knürr MetraMobil® Strong points

■ Variability

- A completely individual cart can be configured from a basic frame in 2 heights, 3 colors and 5 module components.
- Ideal height adjustment with variable height setting of the shelves

■ Stability

- High load rating:
up to 600 N per worktop
up to 2200 N for full trolley
- Distributed load drawer extension up to 100 N
- High stability with advanced sheet steel construction

■ Functionality

- Suitable for the most varied areas of application: PC or printer station, IT-cart, logistics or laboratory

■ Cable management

- Safe cable routing with two cable ducts integrated in the extrusion
- Clear and orderly cable management with integration of accessory parts, e.g. a socket strip, which can be mounted on the extrusion.

■ Well-thought out solutions

- Vision and contact protection provided by the easy "on-off" rear panel, no tools needed
- Orderly arrangement of small material with drawer module with removeable small parts tray
- Smooth running 3/4 pull-out "Quattro" guide

■ ESD versions

Safety and protection in demanding ESD environments provided by ESD castors and ESD powder coating.

Mobile Equipment Carriers

Knürr SynergyCart® Advanced

SYN20210

SYN20213

Knürr SynergyCart® Advanced Strong points

The ergonomic equipment carrier

- Mobile, height-adjustable LCD workstation
- Supports computers, bar code scanners and printers
- Test trolley in production / workshop
- Warehouse picking, scanner carts
- Ideal for automotive and industrial projects where small space-saving trolleys with cable management are required
- Fully assembled and ready for use
- Tested according to the latest standards and regulations
- Stable, attractive base in 2 versions:
 - Synergy Cart Advanced
 - Synergy Cart Advanced MetraLine

Characteristics

- Flexible height adjustable by gas pressure column - 750-1040 mm
- Comfortable working in sitting or standing position
- Easy handling with in the worktop integrated handles

- Ergonomic lever for safe and comfortable height adjustment
- Spacious and stable worktop, made of 15 mm HPL solid core material (width 695 mm, depth 570 mm) for loads up to 16kg
- Either with single or double steering rollers
- Easy movement on uneven floors or above doorsills through ø 125 mm smooth running castors
- Fixation by two castors with locking mechanism
- No scratches on doors, walls and furniture due to integrated plastic bumper caps
- Simple, individual assembly of accessory components, e.g. drawers and storage shelves on the vertical aluminum profile
- User-friendly cable management with plenty of space for cables, sockets and transformers

Individual Project Solutions – Contact Us!

Many application scenarios demand a project specific solution. When planning, manufacturing, and assembling your individual requirements, Knürr takes multiple factors into account, including your personal requirements as well as legal guidelines. Industrial designers and Technicians closely cooperate at our product design department to bring form and function in line. The resulting designs are regularly tested by means of 3D-CAD models and you are welcome to incorporate your ideas any time. Any required prototypes are manufactured by experts who translate your wishes and ideas into a real product.

MOB20135

Knürr SynergyCart® Advanced

- Base unit in Synergy design
- Large leg space
- Double castors in Ø 125mm

Finish

- .1 RAL 7035, light grey
- .9 RAL 7021, dark grey

Supply schedule

- 1 base unit with gas lift column and aluminum profile cover
- 4 Double castors (2 lockable)
- 1 worktop with integrated handles

How supplied

- Fully assembled

Mobile Equipment Carriers

Knürr Cabinet Cart

MOB20142

MOB20143

Knürr Cabinet Cart - Rollo

Strong points

Aesthetics

- Clear lines and curved shapes for a compact and modern look
- Rear and Side panels with square hole design perforation provide additional functions, e.g. for ventilation and hook-in accessories
- Space-saving cabling area, aesthetically integrated in rear

Functionality

- Suitable for the most varied areas of application: PC or printer station, IT-cart, logistics or laboratory as well as workshops or assembly and manufacturing applications
- Space-saving footprint (710 x 870 mm)
- Already implemented cable management

Features

- Maximum static load rating:
 - Overall load rating of each cabinet cart: 1500 N
 - per Castor: 750N
- Surface load of worktop: 400 N
- Distributed load of shelf: 400 N

Material

- All Side panels, shelves, or similar are made from powder coated sheet steel
- Worktop out of high quality multi layer chipboard with HP laminate surfaces, which enable high load ratings and ensure long durability.
- Bumpers (main frame cover) out of special plastics

Available accessories

- Toolholder
- Flat screen holder
- Handle
- Socket strip (e.g. 6 way+switch)

Variability

- Numerous individual configurations possible
- All modules can be combined and mounted in the easiest possible way
- Simple and quick adjustment without special tools

MOB20142

Knürr Cabinet Cart - Rollo

- Knürr Cabinet Cart toolholder can be mounted easily at the rear panel, via square hole design perforation
- Lockable roller blind door
- Vibration-free and noiseless transport with special rubber smooth-running castors Ø 125mm (4 casters, 2 lockable)
- Bumpers, made out of special plastics
- Cabinet Cart handles (bow shaped) can be mounted on left- and rightside

Color
Color combination .9
(as shown in the picture)

Supply schedule

- 1 basic frame incl. 4 casters
- 2 vertical extrusions (rear)
- 2 side panels
- 1 rear panel
- 1 top cover
- 1 shelf

How supplied
fully assembled

Knürr Cabinet Cart

Strong points

Aesthetics

- Clear lines and straight shapes for a compact and modern look
- Huge variety of different color options
- Rear and Side panels with square hole design perforation provide additional functions, e.g. for ventilation and hook-in accessories
- Space-saving cabling area, aesthetically integrated in rear

Functionality

- Suitable for the most varied areas of application: PC or printer station, IT-cart, logistics or laboratory as well as workshops or assembly and manufacturing applications
- Space-saving footprint (550 x 550 mm)
- Already implemented cable management

Features

- Modules can be installed at increments of 50mm
- Maximum static load rating:
 - Overall load rating of each cabinet cart: 1500 N
 - Per castor: 750 N
 - Surface load of worktop: 400 N
 - Distributed load of shelf: 400 N
 - Distributed load drawer extension up to 100 N

Material

All drawers, shelves, or similar are made from powder coated sheet steel

Available accessories

- Hooks
- Cable management (hook on block)
- Shelves
- Drawer
- Front door
- Flat screen holder
- Handle
- Socket strip (e.g. 6 way+switch)

Variability

- Numerous individual configurations possible
- All modules can be combined and mounted in the easiest possible way
- Individual configuration with adjustment of several components (e.g. shelves) at intervals
- Simple and quick adjustment without special tools

Convenience

- Easy to clean with coated surfaces
- All surfaces are corrosion-free, impact and scratch-proof and acid and disinfection agent resistant
- Vibration-free and noiseless transport with special rubber smooth-running castors Ø 125 mm (4 casters, 2 lockable)

MOB20100

Leakage Detector Set

- Monitoring and alert unit for secondary isolation resistance
- For use in combination with isolating transformers IMed series
- Precise warning of isolating failures

Technical data
230 VAC, IP 40

In case of defect the ELG signals an optical and acoustic warning. The resistance is monitored. If the minimum level of 50 kOhm is short fallen, an optical (LED) and acoustic (Beeper) signal is triggered. The ELG is directly connected to one of the output plugs of the IMED transformers. Its function is solely to signal isolating failures.

The ELG is exclusively approved in combination with the Noratel IMED transformers.

Project Management

Take advantage of our expert knowledge, which we have been gathering for decades in numerous customer projects in various industries.

Our **project managers** are your contact partners. They are the interface to you and are responsible for the project planning in accordance with your individual requirements profile. Depending on the complexity of the task at hand, they put together a **professional team** of specialists from the most diverse disciplines.

Numerous factors are incorporated – from the creation of a list of functional specifications, budgeting and deadline planning, through to special design specifications and technical integration, right on through to compliance with standards and guidelines.

During the **product design** phase, industrial designers and technicians work closely together to harmonize form and function. With the assistance of 3D-CAD models, you check the result and can integrate your suggestions at any time.

Prototyping is also firmly in the hands of experts who are hard at work incorporating your requests and suggestions into an initial specific product.

Design and function

Design

Using the most modern CAD applications, we design your products, which set new standards in terms of technology and aesthetics. On the basis of the planned details, 3-D views, design studies and volume models emerge, which represent the most realistic state of development progress and enable modifications in line with your wishes at absolutely any time.

Your company-own corporate design is also integrated with our proposals for materials and color. Ultimately we ensure a smooth technical and technological integration while complying with UL, CSA, VDE or TÜV/GS standards. Only when these stages have been fully completed, can the first prototype be produced.

Exemplary results

Production and logistics

After production release by the customer our sophisticated **logistics concepts** go into operation. Customized planning procedures are integrated and smoothly implemented in our **Supply Chain Management**.

We produce application-specific equipment trolleys in ultra-modern **industrial production procedures**.

And in the production phase our employees guarantee the best possible end product with their long years of experience in parts production, packaging and shipping, supported by our integrated **quality assurance procedures**.

This also includes extensive **packaging expertise**, equipped for global shipping and the toughest environmental conditions.

OEM

Individual solutions

Our standard modules mean the possibilities for unique originals are practically unlimited.

Help us with your requests! Ask us about your original and stand out on the market with your equipment trolley with customized design, harmonized with your company image (CI/CD). Our expert **Design and Technology** Team will be happy to optimally and specifically meet all customer-specific requirements – assuming the appropriate batch sizes.

“Avail of our long years of **experience**, which we use to ergonomically, technically and optimally incorporate our mature and flexibly adjusted product platforms and components into your **individual solution**.”

Notes:

[illegible]

Our Quality Promise:

***Highest quality is guaranteed**

***10 years warranty on surfaces and mechanics**

***Up to 5 years warranty for lifting columns with up to 10,000 lifting cycles**

*the detailed warranty conditions can be found on our website

Ergonomically designed products and solutions from a single source

The **Knürr Technical Furniture** manufactures and develops workstations for electronics labs and mobile equipment carriers for healthcare and automotive industries. Furthermore Knürr Technical Furniture is the specialist for height adjustable control room workstations.
