Knürr Dacobas® Advanced Strong Points

Standards compliance

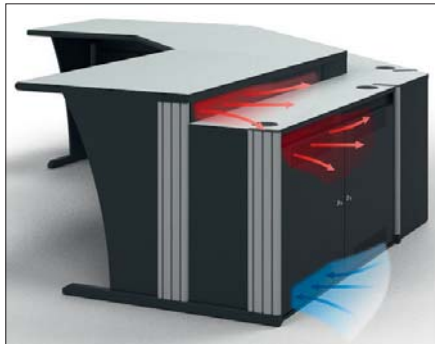

Dacobas Advanced meets DIN EN ISO 11064. This means that the operator works at a console that not only fulfills standards but also gives the space and comfort basic to efficient and professional operation. Worktop height is always 750 mm.

Straight or lowered worktop

All console elements are available with straight or lowered worktops. Even straight corner elements - that may be used to place a printer on - can be combined with a row of lowered worktops.

Silent, passive ventilation

Knürr brings profound knowledge of thermal management into this product: Correctly positioned ventilation openings allow for natural convection and reduced back ground noise.

DAA20005

Tailor-made systems

Bespoke spacers scale the row of consoles exactly to the required dimensions. Straight, cornered and circular layouts can both be produced in a convex or concave (theatre) layout.

Maximum stability

30-year proven sturdiness of Dacobas extruded aluminium profiles and welded sheet steel make Dacobas Advanced the reliable and stable choice for your control room.

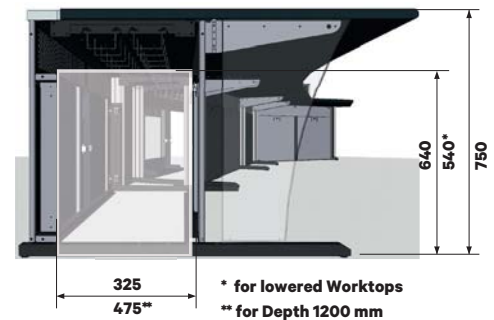

Different worktop depths

Dacobas Advanced is designed to accommodate large workstations in the technical pedestal. Larger devices and 19"-equipment find their place in the 1200mm deep version.

Integrated technical pedestal

The integrated technical pedestal can be accessed both from front and rear. Choose from hinged or slide-in doors as well as perforated sheet steel for ventilation or plain wooden doors for best sound absorption. Hinged doors can be equipped with PC-trays for easy access.

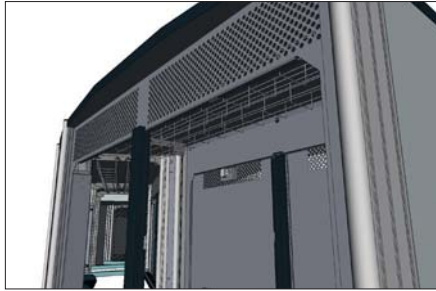

DAA20009

Usable dimensions of technical pedestal

DAA20010

DAA20011

DAA20012

DAA20013

■ Convenient cable management

In option: Front and rear hinged cable runners. Snap In allows for easy and toolless mounting. Two cable runners separate power and network cabling. Existing depth struts of the basic frames already come with the necessary connectors.

■ Tailored worktops

Worktops of up to 3600mm at a stretch reduce gaps and seams. Talk to our engineers in order to have the worktop made from one piece per workplace.

■ Ships flat packed

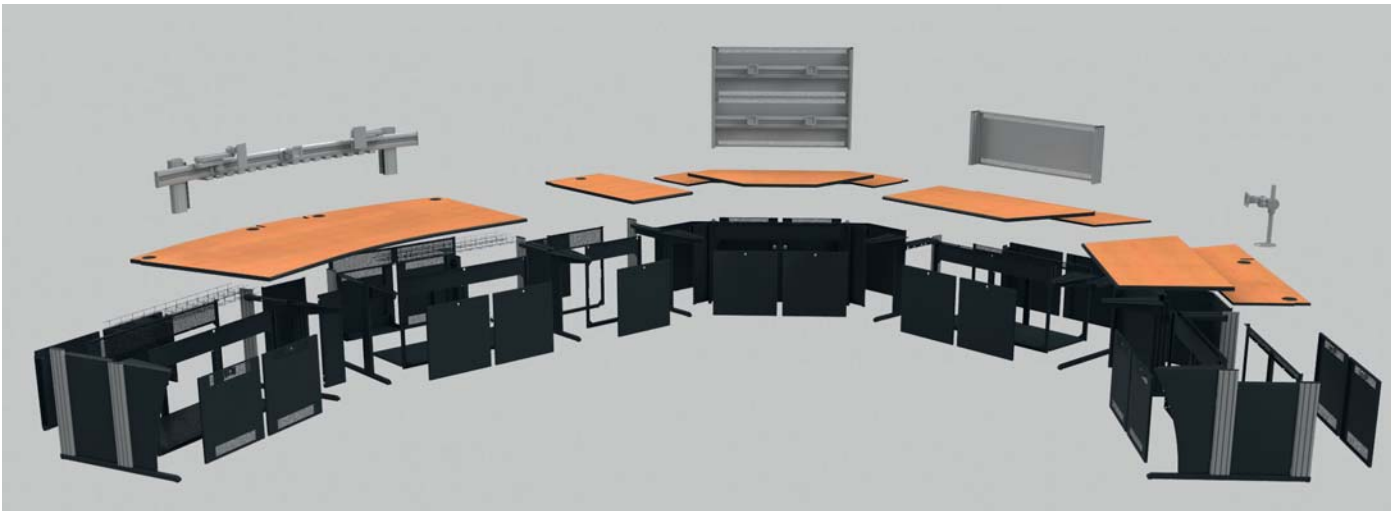

All components are shipped preassembled and flat packed in order to reduce shipping volume as well as space and time demand during the transport and installation process.

■ Easy to assemble

The exclusive use of standard screws allows for a quick installation on site. Comprehensive assembly manuals explain the set up process.

■ Future proof modularity

Add new consoles to an existing row, change your current installation or grow up with new accessories. The modular design and the ubiquitous T-Slots leave you all options for future upgrades.

DAA20014

Three steps to your personal console:

Step 1 > Substructure

DAA20016

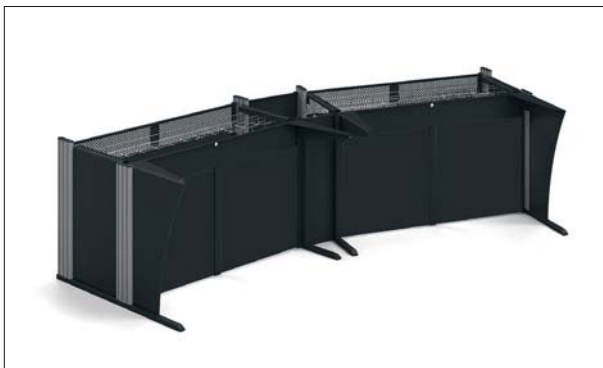

Side Elements (p.13)

DAA20018

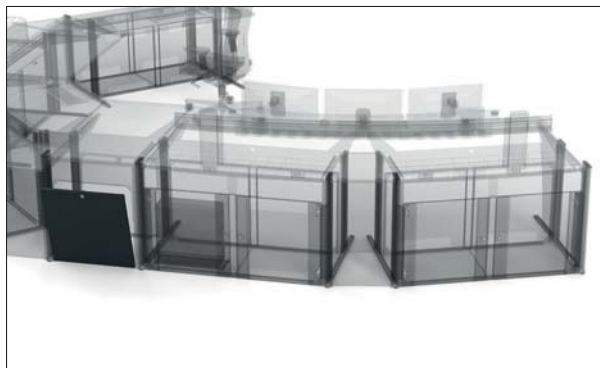

Basic Frames (p.13/14)

DAA20067

Complete Substructure

DAA20017

Hinged- and Slide-in Doors (p.15)

Step 2 > Worktops

Have your individually designed worktop of up to 3600mm while respecting the following factors:

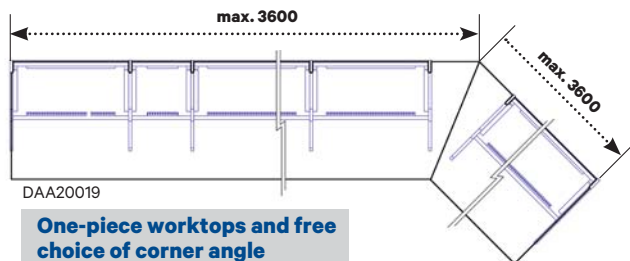

- Location of workplaces
- Transport and handling
- Dimensional constraints

See p.16

DAA20061

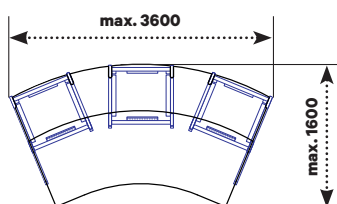

Worktop

DAA20019

One-piece worktops and free choice of corner angle

DAA20020

Circular Worktops

Step 3 > Monitor mounts

Functional rail to mount between Dacobas Profiles

Choose the profile extension that fits your individual TFT setup. Perforated rear panels to install between the profiles are found on p. 18/19

DAA20021

Add on functional rail

Freestanding solution for maximum flexibility with circular consoles. Also available with electrical height adjustment for improved comfort.

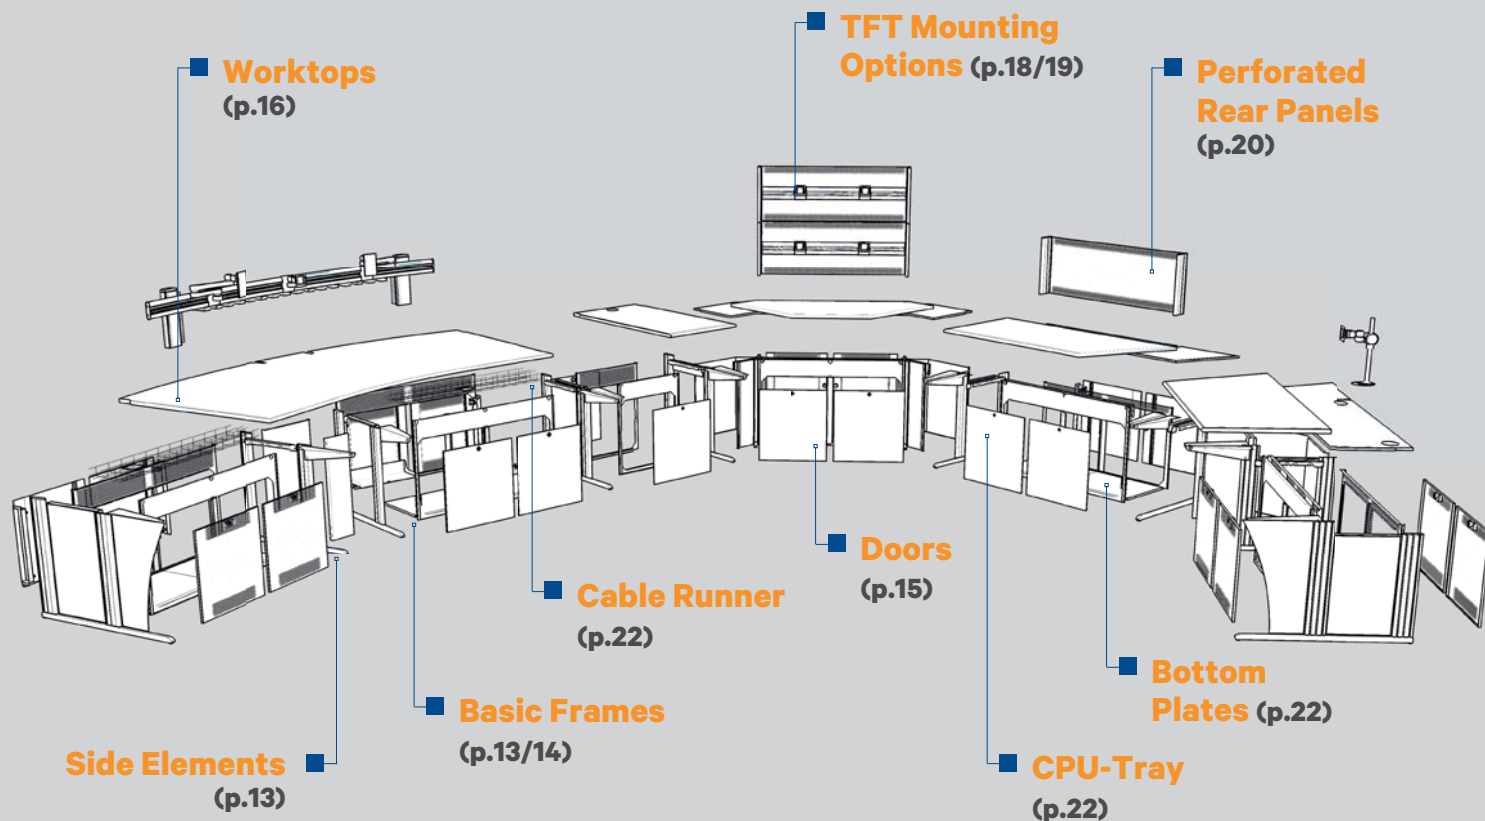

DAA20022

Add on monitor poles

The slimmest solution for tidy and unobstructed installation of standard monitors. Poles can be placed virtually anywhere on the worktop. Multi-TFT solutions available. See p.18/19.

DAA20023

DAA20024

Surface Colors:

Dacobas Advanced is available with two standard color patterns that easily can be identified by the last digit of the part number:

DAA20025

Version .1 Light grey

A light grey worktop is enclosed by a black ErgoSoft Edge at the front and black plastic edge veneers. All sheet steel parts are powder coated in RAL7021 Dark grey, all extruded aluminium profiles – except those in the front leg space – are powder coated in RAL9006 White aluminum.

DAA20026

Version .5 Beech

While the worktop is finished with Beech, all other parts of the console show the same color pattern as with the light grey worktop.

DAA20027

Nano:
Bianco malé

DAA20028

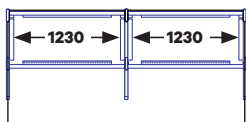

Nano:
Grigio londra

Please take note of our new Nano-Surfaces which feature extremely low reflectivity and a velvet smooth touch!

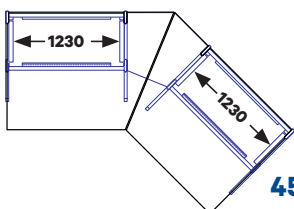

Many further materials for worktops available for request.: E.g.: Corian®, Solid Core Board, Wood, etc.

Sample Configurations

Below you will find a helpful overview of the most common basic assemblies. Each basic assembly consists of starter-, end- and link up-side elements as well as the respective number of basic frames.

Linear 2-fold console

Consisting of two basic frames W1230, one start-, one link up- and one end-side element.

45° console

Consisting of two basic frames W1230, one start-, two link up and one end-side element as well as front and rear 45°-cover panels.

90° console

Consisting of two basic frames W1230, one start- and one end-side element, one 90° corner element.

90° trapezoid console

Consisting of two basic frames W1230, one start- and one end-side element, one 90°-trapezoid corner element with 600mm front edge.

Circular console

Consisting of two basic frames W1230 (R3000), one start-, four link up side elements with short feet and one end-side element, fitting front and rear cover panels.

Further helpful accessories as

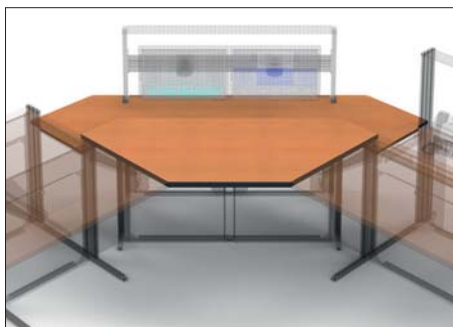

- Cable management
- Power strips
- Lighting
- Seating and ambient furniture can be found in our catalogues.

Worktops for Sample Configurations

Premium worktops made from quality 3-layer particle board with a durable HPL-coating. 30mm strong main worktops contribute to the rigidity of the construction. Lowered monitor levels made from 19mm direct laminated panels allow for reduced transport weight and handling with ease.

Select the correct worktops to complete your Dacobas Advanced installation.

The well-known ErgoEdge at the front side makes working comfortable. All other sides are covered with a durable ABS-edge veneer.

Please note:

Standard worktops are always equipped with cable inlets at the rear side in order to fit with functional rails on Dacobas profile extensions. When installing other monitor levels, we offer corresponding individual placement of cable inlets. The required openings are cut before shipment. Please always order worktops

together with your choice of monitor level. Further helpful accessories as

- Cable management
- Power strips
- Lighting
- Seating and ambient furniture can be found in our catalogues.

Material

- Worktop: 3-layer quality particle board FP / Y E1, Fire resistance class B2
- Worktop coating: High Pressure Laminate
- Edge veneer: ABS

Surface

- Worktop: .1 RAL7035 Light grey or .5 Beech décor

DAA20068

Side Elements and Link Up Side Elements

Side elements for 1050 and 1200mm deep consoles as well as for straight and lowered worktops. Side elements between basic frames give optimum rigidity to rows of consoles.

Side elements are made from rigid, welded adjustable feet, front and rear aluminum profiles with T-slots and depth struts with lashes for the flexible installation of cable runners.

Material

- Sheet steel, powder coated
- Extruded aluminum profiles, powder coated

Surface

- Feet: RAL7021 Black grey
- Vertical profiles (rear): RAL9006 White aluminum
- Vertical profiles (in the leg space): RAL7021 Black grey

Basic Frame W1230

DAA20069

Basic Frame W1830

Basic Frames

Basic frames in widths of 630, 1230 and 1830 mm for straight or lowered worktops, for depths of 1050 or 1200mm are the rigid foundation for the Dacobas Advanced system.

Perforated rear panels allow natural convection to cool the technical pedestal.

Choose from plain or perforated doors and add bottom plates if required. When extending an existing console with basic frames, additional link up side elements are required.

Material

Sheet steel, powder coated

Surface

RAL7021 Black grey

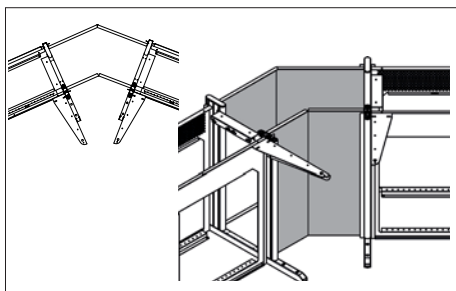

Supply Schedule

- Front frame
- Rear frame
- 2 Door struts (only W1230), 4 Door struts (only W1830)
- Mounting material

Please Note:

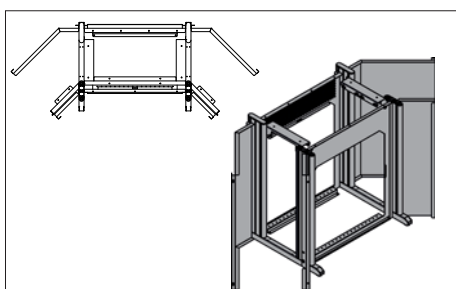

For basic frames W1830 always use „slide-in doors“ in the middle section

Basic Frames for Corners

Basic frames for straight or lowered worktops, for depths of 1050 or 1200mm, in versions 45°, 90° 90° Wall, 90° trapezoid, 90° trapezoid-wall and circular in R3000 and R1500.

Basic frames for 90° corner sections have rear perforations for optimum ventilation of the technical compartment. These basic frames are completed either with slide-in doors or hinged doors.

For the 90° corner and the 90° wall corner 2 doors W630 are needed.

For the 90° trapezoid corner and the 90° trapezoid wall corner either 4 doors W630 or 2 doors W1230 are needed.

Material

Sheet Steel, powder coated

Surface

RAL7021 Black grey

Please note (for circular versions)

If cover panels are used with W1230 basic frames, the console radius at the front side is R3000. With W630 basic frames the console radius is R1500.

DAA20039

Perforated hinged door

DAA20040

Hinged door

Doors

The Dacobas Avanced program offers various ways of closing the front and rear side of the basic frames:

- Plain hinged or slide-in doors made from particle board.
 - Perforated hinged or slide-in steel doors
- Well placed ventilation openings in the upper and lower part of the perforated doors allow for cooling through natural ventilation. Plain doors offer additional acoustic dampening when feeding cool air into the technical pedestal from a ventilated raised floor. All steel hinged doors come with thread holes for the installation of CPU-Trays at the inner side and always fit for left or right installation. Pushlocks offer access restriction in standard and can be replaced against locks if required.

Material

- Sheet steel doors: 1,0mm Sheet steel, powder coated
- Wooden doors: Direct laminated 3-layer quality particle board 19mm

Surface

- Sheet steel: RAL7021 Black grey
- Wooden doors: RAL7021 Black grey

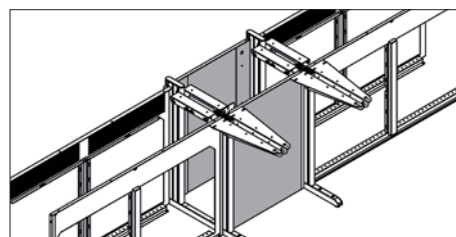

Supply Schedule

Monitor Mounts

Flat screen monitors are the main interface in today's control rooms between operator and system. According to ergonomic principles, monitors should always be easily adjustable towards the user and allow for quick change in order to reduce maintenance time to a minimum.

Dacobas Advanced control room consoles can be equipped with the following monitor mounts while keeping all flexibility:

Add on Monitor Poles

- For single or two story installation
- Free placement on the worktop
- Best view on everything behind the console

Functional Rail on Dacobas Profile Extensions

Large range of accessories like monitor arms, lighting, and much more make the functional rail a versatile platform. Mounts between two vertical profiles and a perforated rear panel.

Functional Rail Add on Monitor Level

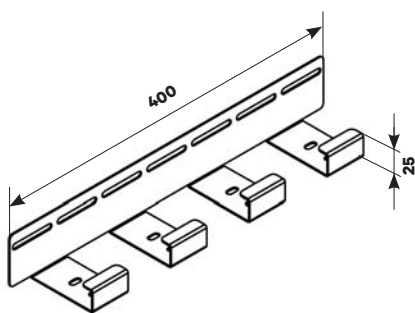

Besides the various options of the standard functional rail, this version also offers an electric height adjustment in option. This allows a better view on videowalls behind the console.

For additional information see also our catalogue "Ergonomic Flat Screen Supports".

Perforated Rear Panels

- Perforated rear panels fit W630 and W1230 Basic Frames, 45°, 90° and 90° Trapezoid Corners
- Perforation: 8 mm in 25 mm pattern
- Privacy screen for monitors and monitor cables
- Vertical profiles to be connected in line with basic frame's vertical profiles

Material/Surface

- Sheet steel perforated rear panel and extruded aluminium profile, powder-coated, RAL9006 White aluminum

Supply schedule

- 1 Perforated rear panel

- Mounting material Resp.
- 1 IM profile, length: see table
- Mounting material

Please note

Choose H350 rear panels and profile extensions in combination with one story monitor mounts and straight worktops. These can be combined seamlessly with H450 rear panels and profile extensions which fit with lowered monitor levels. For two story monitor mounts, just add a second line of H350 rear panels and use H700 profile extensions or H800 profile extensions for consoles with lowered monitor levels.

Knürr Task LED

DAA20083

Knürr Task LED L

Knürr Task LED

The Knürr Task LED is fitted with a bright LED lamp that provides pleasant task lighting and an easily accessible dimming button.

A specially developed highly reflective plastic reflector ensures glare-free working. What's more, even with such impressive performance figures, the Knürr Task LED is surprisingly economical in terms of energy consumption, with only 8 W of installed consumption for an average illuminance of up to 700 lx.

- Light and easy to adjust to your individual position
- Specially developed reflector for glare-free lighting
- Switching and dimming with memory function via easily accessible control button in the luminaire head
- Automatic cut-off and switch-on behavior can be adjusted
- Maintenance free LED technology with a service life of up to 50,000 hours and more

Technical data

- Color temperature neutral white 4,000 K
- Connected load 100-240 V; 50/60 Hz
- Power consumption approx. 8 W
- Luminous flux approx. 600 lm
- Luminous efficacy approx. 75 lm/W
- Illuminance efficiency factor 93 lx/W
- Color rendering index (CRI) >80 (typ.85)
- Supplied with 3 m mains lead and with mains plug type CEE 7 / 16 (Euro plug),
- Various fastenings as accessories

Colour

Aluminium black coated

Knürr Task LED Flex

DAA20054

Knürr Task LED Flex L

Knürr Task LED Flex

The Knürr Task LED Flex brings the combination of lighting quality, energy efficiency, and design to a new level. The richly contrasting interaction between angular and elliptical forms lends it a unique character. The advantages of its cleverly designed thermal management are plain to see: higher energy efficiency, longer service life, and less heating up.

- Light and easy to adjust to your individual position
- Specially developed reflector for glare-free working
- Switch-off and dimming with a light touch of the touch-LED
- Intelligent Auto-Off function (after 14 h) reduces power consumption
- Maintenance free LED technology with a service life of up to 50,000 hours and more

Technical data

- Color temperature neutral white 4,000 K
- Connected load 100-240 V; 50/60 Hz
- Power consumption approx. 7 W
- Luminous flux approx. 400 lm
- Luminous efficacy approx. 57 lm/W
- Illuminance efficiency factor 64 lx/W
- Color rendering index (CRI) >80
- Supplied with 2.3 m mains lead and with mains plug type CEE 7 / 16 (Euro plug),
- Various fastenings as accessories

Dimensions in mm: W = Width
H = Height
D = Depth
h = Installation height
d = Useful depth
L = Length

HU = Standard height unit, 1 HU = 44.45 mm
19" = 482.6 mm, (ideal for 19" components in acc. with DIN 41494)
UP = Unit of packaging
kg = Weight

Conversion: 1 inch = 25.4 mm
1 pound = 453.6 g

Replace „x“ with the number of your color choice
