

Ergonomic Flat Screen Supports

The increased demand for visualization in many control consoles and control rooms means that the number of monitors at workstations in particular is also constantly increasing. Along with the right desk, appropriate and ergonomic monitor connections and arrangements are therefore also important elements of the setup. The Knürr brand has been representative of ergonomics at the monitor workstation for over 25 years.

Ergonomically positioned monitors prevent health-hazardous bad posture. The right viewing angle to the monitor ensures an ideal view and back-friendly sitting position at the same time. Studies, tests and surveys, etc., show that workstations that are set up the right ergonomic way reduce the number of sick days.

Knürr's universally applicable supports are not only suitable for flat screens – they are also ideal for ergonomically positioning workstation lamps and speaker systems, or communication equipment on control station desks.

Flat Screen Supports

- Flat screen holders for fixing with VESA adapters, 75/100 mm
- with cable management

Supply schedule

- 1 flat screen support
- Type E, F and G with pre-mounted height adjustment plate
- Fixing material

How supplied

Flat-packed kit

Type A-G

- For mounting on Knürr double functional rails
- Swivel arm depth adjustment or gas pressure spring arms for height adjustment
- Fast swap-out with rail adapters
- Any horizontal positioning on double functional rails

Material Type A-G

- Swivel arm – die-cast aluminium
- Adapter plates – sheet steel
- Gas pressure spring arm covers – plastic

Finish Type A-G

Metal parts – powder-coated, RAL 9006, White aluminum, smooth
Gas pressure spring arm housing – type B/C: Plastic, light gray

Type H

- With extension arm
- Integrated gas pressure spring
- With quick connector function

Flat Screen Support T45

- For mounting on Knürr double functional rails
- Only 45 mm mounting depth
- Tilttable of -30° to +30°

Finish / Material

Gas pressure spring arm housing: Die-cast aluminum, silver
Extension arm: Aluminum, silver

Support Pole for TFT Swivel Arm

- Slender design
- Enables easy adapter height setting in any position
- For single or double connection parts (see page 6)
- Freely combinable – one or two row setup
- Up to 32 kg load capacity

Workstation mounting

- With desk clamp or threaded connection, both with plastic underlay to protect the worktop
- For worktop thickness 15 mm – 40 mm

Supply schedule

- 1 support pole adapter with base plate
- 1 clamp or threaded connection
- Fixing material

How supplied

Flat-packed kit

Dimensions

- Diameter 30 mm
- Height 400 mm or 700 mm

Material

- Aluminum tube
- Base – die-cast aluminum

Finish

Metal parts – powder-coated, RAL 9006, white aluminum

Note

The worktop must be drilled through for mounting with threaded connection

SYN20020

Knürr SynergyWall®

Strong points

- **Functionality and style:** A product family for uniform equipment and furnishing in the control room in a full-coverage modern design.
- **Spacious cable management** with plenty of space for switches, cables and power supplies. Completely covered from screen through to raised floor.
- **Modular setup** – industrially produced modules can be upgraded and added to at all times; available to buy for many years to come.

■ Application areas for the Knürr SynergyWall®

- TV studios, news studios
- Process display in control rooms, control and measuring stations
- Network Operation Centers (NOCs)
- Data centers – computer monitoring
- Operation control centers – police, fire department, rescue services
- Municipal traffic monitoring
- Security systems, video monitoring
- Airport and train station information terminals
- Reception areas

■ Practical benefits

- Quick and easy to set up
- Monitor change: Effortlessly without any tools – simply hang on monitors!
- Highest possible stability, even with large span widths
- For all monitor sizes; different sizes can also be mixed
- Straight wall or cockpit solution (10°)
- Low installation depth/lower space requirement – good fit for small control rooms
Option: Without foot stabilizer at the rear
- The monitor wall can be positioned in the room, regardless of what the room is made of
- Optional rear and front panel covers provide optimum protection for cables and plugs
- Optional pedestals provide space for computers, power supplies and documentation
- Extension option with short cross extrusion for additional displays
- Monitors can swivel up to 15° in four positions

SYN20021

Knürr SynergyWall® complete configuration

A complete configuration with four public displays – 1,016 mm (40")
Ready configured for immediate use

Material

- Side panels – extruded aluminum with top cover, sheet steel side panel covers and foot stabilizer, powder-coated
- Crosspieces – extruded aluminum, powder-coated
- Large monitor holder – sheet steel, powder-coated

Finish

- Side panel aluminum extrusions, cross extrusions and large monitor holder: RAL 9006 white aluminum
- Side panel covers, foot stabilizer and side panel top cover: RAL 7021 dark gray

Dimensions

- Total width – 2,110 mm
- Clear width – 1,890 mm
- Side panel: height, 2,400 mm; depth, 290 mm; width, 107 mm

Supply schedule

- 2 side panels, with integrated vertical cable routing and foot stabilizers front and rear for highest possible stability
- 2 crosspieces for fixing the TFT adapter; with integrated horizontal cable routing
- 8 large monitor holders, tiltable to 15°
- 4 public displays, LCD, 1,016 mm (40")
(Make: Subject to manufacturer and technical changes due to short product cycles on the display market.)
- Network cable and VGA cable for 4 LCD monitors
- Mounting material

How supplied

- Flat-packed kit, partially assembled
