Marshall-Tufflex

Cable management catalogue

	<h3>An introduction to Marshall-Tufflex</h3> <p>An introduction to the cable management catalogue, our customer service promise and the benefits of working with Marshall-Tufflex.</p>	Page 4
	<h3>Specialised applications</h3> <p>Marshall-Tufflex design and manufacturing facility for the production of bespoke, fabricated, pre-wired and pre-assembled products to meet the needs of installation and building variations.</p>	Page 7
	<h3>MT32 Prefabricated and modular wiring</h3> <p>A range of project specified, pre-wired, plug and play, power distribution systems from main distribution board to final circuit. Range includes: Home runs from the main distribution board; Lighting systems; Perimeter systems; Dry lining systems; Surface mount systems.</p>	Page 15
	<h3>Underfloor to desk solutions</h3> <p>A range of products that provide complete power and data solutions from under the floor up to the desk. Range includes: Series 507 powertrack; 507 Raised floor boxes and grommets; 507 In-screed systems; MT32 Pre-wired underfloor distribution; SnakeWay wire support system; Desk modules.</p>	Page 23
	<h3>PowerPoles and PowerPosts</h3> <p>Elegant solutions for managing services to island work stations. Range includes: Series 1 single and double-sided PowerPoles and PowerPosts and Series 2 single and double-sided PowerPoles and PowerPosts with hinged covers.</p>	Page 45
	<h3>PVC-U Perimeter trunking systems</h3> <p>Multi-compartment dado and skirting trunking. EMI screening options. Range includes: Odyssey; Mono; Compact; Sterling Profile; XL Trunking; Twin165 trunking; Twin Plus; Series R; MT32 modular wiring for trunking.</p>	Page 51
	<h3>Aluminium perimeter trunking systems</h3> <p>Multi-compartment dado and skirting trunking. EMC compliant. Range includes: Elegance; Sterling Profile; XL Trunking; Twin Plus; Compact; Bench Trunking; Sovereign Plus; MT32 modular wiring for trunking.</p>	Page 107
	<h3>Steel perimeter trunking systems</h3> <p>Multi-compartment dado and skirting systems. Friction-fit, screwless design. EMC compliant. Range includes: Series 130, 170 and 210 Twin.</p>	Page 131
	<h3>Power, voice and data accessories</h3> <p>13Amp wiring accessories and data outlet boxes for trunking systems. Range includes: Sockets; Switches; Spurs; Flush and surface options; UK and international boxes; MT32 Pre-wired and modular accessories for trunking.</p>	Page 139

PVC-U Domestic and general trunking Page 145

A range of general trunking options for domestic and commercial installation.

Range includes: Angled cableway; Bench trunking; Clear trunking; Cornice trunking; Maxi trunking; Mini trunking; Sceptre trunking; Sovereign Plus trunking.

Conduit systems Page 167

A full range of PVC-U conduit and fittings.

EMC and LSOH options.

Range includes: PVC-U round and oval conduit and fittings; Corrugated conduit; MT Supertube.

Accessory boxes and enclosures Page 177

A full range of boxes and enclosures manufactured in high impact PVC-U.

Range includes: Surface boxes; Dry Lining boxes; Circular dry lining boxes; Moulded enclosures; Acoustic hoods; MT32 Pre-wired, modular dry lining and surface mount accessories.

GRP Ladder, tray and SnakeWay Page 183

Light weight and easy to install alternatives to steel ladder, tray, duct and basket.

Range includes: GRP Ladder; GRP Tray; GRP Troughing; SnakeWay wire support systems.

Laboratory and healthcare solutions Page 203

Specialist products for the healthcare environment.

Range includes: Bio Trunking Solutions with antimicrobial properties; Bedhead service units; Task lighting; Bench trunking in PVC-U and aluminium; Ceiling and suspended service units.

Fire and security containment systems Page 213

Products designed specifically to meet fire and security wiring regulations.

Range includes: Callmaster (red trunking and boxes); MT Supertube FR Plus LSOH conduit with compliance to the EMI (Electromagnetic Interference) Directive and LUL Engineering Standard; Fire barrier pads; Clear cable trunking.

TuffMaster IP rated enclosed sockets Page 219

A range of metal clad wiring accessories and IP rated enclosed switches and sockets designed for water, dust and chemical resistance.

Range includes: IP56; IP55; IP54; Metal clad & polycarbonate wiring accessories.

Dear customers, clients and colleagues!

As always, we have given a great deal of thought to making our catalogue simple to use and as easy as possible to find your way around. It has been designed to be informative too, and to provide you with the information you need in a market that is more demanding than ever.

Peace of mind is what it's really all about and it's worth taking a look at some of the real benefits Marshall-Tufflex can offer you:

- We're the cable management market leader and have a reputation for manufacturing and supplying quality products.
- We recognise that time on site costs you money, so our innovative product development team insist on product designs that help you achieve your targets within budget.
- Our product ranges meet the latest cabling standards and accommodate all building designs and construction parameters.
- We have a total commitment to the highest manufacturing standards.
- You can have confidence in our environmental integrity and performance.
- We're always on hand to help with full technical and customer service support.
- Our Specialised Applications team can produce bespoke solutions to help with all your installation challenges.
- You can rely on consistently high levels of service and delivery.
- Excellent product availability with extensive stockholdings at our warehouses and through a large network of national and independent wholesalers.
- The confidence of working with a customer-focused, family-owned company.

The way we look at it, working with Marshall-Tufflex is a long term partnership in which our highest priority is to build your confidence in us. It is as important to us as it is to you that you receive the products, the service and the delivery you want, when you want it.

And we're pleased to offer you something that money can't buy - well over 60 years' of expertise and valuable experience.

Jim Fletcher
Managing Director

Cable management solutions

Marshall-Tufflex manufactures and supplies a comprehensive range of cable management and prefabricated wiring solutions for commercial, industrial, healthcare, education and domestic markets.

Highest quality products

We pride ourselves in offering durable and reliable products of the highest quality. These include prefabricated wiring systems, trunking systems in PVC-U, steel and aluminium, trunking with inherent antimicrobial properties, GRP tray and ladder systems, power and data distribution systems from under the floor all the way to the desk, PowerPoles and Posts and options for LSOH, Cat 6, Part M, EMC and EMI compliancy. All these products meet the highest technical standards and we specialise in creating bespoke solutions specifically to meet your individual requirements.

Excellent customer service

Our network of sales engineers supported by our Customer Service team provide technical and practical assistance and access to stock availability, lead times and delivery schedules.

Our Customer Services team can be contacted on +44 (0) 1424 856600.

Technical support

The members of our Technical Team are experienced electricians and electrical engineers who can advise on a wide range of solutions and technical issues, such as the latest wiring regulations, product standards, EMI shielding, data cabling control and Parts L and M compliancy.

Our Technical Team can be contacted on +44 (0) 1424 856688.

New product innovation

To meet the demands of continuing change and improvement in the building industry in relation to installation practices, standards and building designs, we are constantly pioneering new products that are sustainable, environmentally friendly and can reduce installation times.

Products in stock

Marshall-Tufflex products are available throughout the UK via a large network of national and independent wholesalers. Our international distributors also maintain a range of products for their customers locally.

Middle East factory

To sustain our global enterprise, and to support the high demand from the Middle East, we have a factory in the UAE which is designed to hold stock specifically to service the GCC (Gulf Co-operative Council) region.

Look for these quick reference symbols within the catalogue

Indicates that a product can be used in conjunction with **MT32** Prefabricated Wiring.

Indicates that a product is compliant with **Cat 6** cabling or above.

Indicates that a system can be manufactured with **antimicrobial** properties.

Environmental

Marshall-Tufflex actively pursues a comprehensive programme to develop formulations based on environmentally acceptable materials, whilst still maintaining and, where possible, improving on long-term performance properties.

Vinyl 2020

The company is dedicated to meeting the requirements of Vinyl 1010 and its ongoing programme til 2020 of Voluntary Commitment to the European Commission.

Recycling

Marshall-Tufflex is active in and financially supports various industry bodies in driving the industry in the use and control of PVC-based materials, with the aim of increasing awareness and use of recycled material. We also recycle paper, cardboard, polythene, wood, metal, print cartridges and aluminium cans.

Quality Management Systems

Marshall-Tufflex is totally committed to quality and customer satisfaction and the company is recognised by the British Standards Institution as a firm of Assessed Capability to BS EN ISO 9001:2008.

Environmental Management Systems

Marshall-Tufflex is totally committed to achieving high environmental standards and is recognised by the British Standards Institution as a firm of Assessed Capability to BS EN ISO 14001:2004.

Carbon assessment

The Carbon Trust was set up by the Government in 2001 as an independent company.

Their mission is to accelerate the move to a low carbon economy by working with organisations to reduce carbon emissions and develop commercial low carbon technologies.

Marshall-Tufflex was assessed by the Carbon Trust in 2007 and received an excellent report.
