

Modular Consoles For Aviation And Aerospace Industry

Knürr is a leading designer and manufacturer of customized and pre-engineered modular consoles for command rooms and control centers. Certified customer-specific solutions based on standard modules make this German enterprise the perfect qualified partner for all control room applications.

With over three decades of experience in control consoles and technical furniture, Knürr takes all aspects of modern space planning and ergonomics into account.

The company is also renowned as a global partner for major airports (e.g. Munich, Los Angeles, Paris, etc.) and leading airlines.

Knürr's planning and engineering specialists are dedicated experts in realizing airport and traffic consoles in mission critical environments. Knürr offers an experienced product management team, in-house design and solutions experts, skilled craftsmen, premium product quality and a staff willing to go that extra mile for its customers.
